

Full Face Shield - Foam Rim
(Code: PPE-FFS)

Frame Face Shield
(Code: PPE-DFS)

Disposable Glasses
(Code: PPE-DG)

Protection for your Eyes and Face

We have a range of PPE suitable for personal protection against COVID 19 be it in a medical or business environment or personal – shopping, walking, working.

The glasses framed face shield is light, easy to don and doff and suitable in lieu of a face mask. The framed face shield and glasses lens is easily separated from the frame via our patented connection design for changing to a new lens.

Both face shields are suitable for those affected by a relevant medical condition - including problems with their breathing, a serious skin condition on the face, a disability or a mental health condition.

The full face shields provide comfortable protection against contamination of eyes, nose & mouth.

Optically clear,
Anti-glare and
Latex Free.

They accommodate
eyeglasses and face
mask.

Made and distributed
by PDMedical.
